

FinTOP SG Product Specification

General Information

FinTOP SG is a sterol rich Tall Oil Pitch product that can be used as a raw material for sterol separation.

Specification

Property	Specification limits	Method
Acid Value, mg KOH/g	max 60	ASTM D465
Rosin Acids, %	7-25	ASTM D1240
Total sterol content, %	min 19	GC/FID

Typical analyses

Property	Typical value	Method
Acid Value, mg KOH/g	45	ASTM D465
Rosin Acids, %	14	ASTM D1240
Total sterol content, %	21	GC/FID

Delivery and storage

Product is in liquid form at storage temperature of 70°C and it can be delivered in ISO-container or road tanker.

FinTOP SG should be stored at 70-80 °C and the recommended unloading temperature is min. 70 °C.

In case the product is cooled down, it becomes viscous. When heating the material up to 70-80 °C, it will restore viscosity low enough for pumping.

EC number 232-414-4
CAS number 8016-81-7
HS-code 3807 00
